

Déclaration de contribution / Declaration of Contribution

EXEMPLE 1

While the desire to examine the *xxx model* was mine, many helped in the literature review, experimental design, and data analysis. *Ms. Y* and *M. Z* both aided me in identifying and clarifying my specific research question. Both *Dr. Y* and *Dr. Z* regularly sent me relevant literature that they believed might help me in my research. I set up the experimental design, with the help of *Dr. Z* for some details; he checked and reviewed all my studies before running them online. *Dr. Y* also gave me critical feedback about how to improve my experimental measures and aided me in my analysis. I collected the data and carried out the analysis, with the help of *Dr. Y's* post-doc, *W*. I made the theoretical interpretations and wrote the thesis. *Dr. Y* and *Dr. Z* gave me much feedback on my thesis, including theoretical notes, style and presentation notes, and analysis notes. I am very grateful for all their contributions.

EXEMPLE 2

Ont participé à ces travaux : *A. A., B. B., C. C.*

- la définition de la question scientifique qui est posée : *AA, BB*
- la recherche bibliographique permettant de cerner la question et de guider le choix de l'approche et de la méthodologie : *AA, BB, CC*
- le choix de l'approche générale pour répondre à la question : *AA, CC*
- le choix de la méthodologie spécifique : *AA, BB, CC*
- la mise au point de la méthodologie : *AA, BB, CC*
- la programmation du modèle : *BB, CC, moi-même*
- l'analyse des données : *BB, AA, moi-même*
- l'interprétation des résultats et la formulation des conclusions : *BB, AA, moi-même*
- la rédaction du mémoire, la production de tables ou de figures : *moi-même*
- la relecture et les commentaires sur le mémoire : *AA*
